Hanamkonda

<https://www.linkedin.com/in/tejaswini-appani-a146ba251>

## Technical Skills

- Java(Intermediate)
- Python(Basic)
- HTML (Intermediate)
- CSS(Intermediate)
- SQL(Basic)

## Education Background

- **Bachelor of Technology in Artificial Intelligence & Machine Learning**

Kakatiya Institute of technology and Science warangal

CGPA 7.89

- **Intermediate 2019 - 2021**

Sr Junior college

Percentage of 93.8

- **SSC in 2019**

St.Mary's high school

Achieved 9.5 GPA

## Career objective

To contribute to an organization that values continuous improvement, where I can leverage my skills and knowledge to drive success while aligning with and advancing the company's objectives.

## Projects

### Mini Project

#### Chatbot on Indian Constitution

Developed a chatbot providing instant information and answering queries on the Indian Constitution, improving accessibility to legal knowledge.

### Major Project

#### Deep Learning Based Attribute Identification for Deceit Prediction Using EEG Signal Analysis

Designed a deep learning model for deceit prediction using EEG signals, leveraging Sample Entropy and RQA for feature extraction and LSTM for precise classification, ensuring accurate attribute identification.

#### Online Food Order Project

Built a full stack food ordering app with menu browsing, order placement, status tracking, and payment integration.

## Internships

- **Internship from Emerging Technologies in Artificial Intelligence**

12/05/2023 - 24/06/2023

- **Internship from CodTech in Web Development**

15/06/2024 - 15/08/2024

## Certificates

- Sumshodhini Organization
- Smart India Hackathon(SIH)

## Declaration

I hereby declare that the details furnished above are true and correct to the best of my knowledge.
